## Machine Specifications

| Model    | Effective Cutting Area | Machine Size (L × W × H) |
|----------|------------------------|--------------------------|
| AK4-2516 | 2500mmx1600mm          | 3450mmx2300mmx1350mm     |

| Model    | Effective Cutting Area | Machine Size (L × W × H) |
|----------|------------------------|--------------------------|
| AK4-2521 | 2500mmx2100mm          | 3450mmx2720mmx1350mm     |

| Max Cutting Speed | Max Cutting Thickness | Cutting Accuracy |
|-------------------|-----------------------|------------------|
| 1500mm/s          | 50mm                  | 0.1mm            |

| Supported File Formats | Suction media | Pump power |
|------------------------|---------------|------------|
| DXF/HPGL               | Vacuum        | 9KW        |

| Power Supply        | Operating Environment              |
|---------------------|------------------------------------|
| 380V/50HZ 220V/50HZ | Temp. 0°C-40°C, Humidity 20%-80%RH |
